

Henrique Simões Alberti

Economics · AI products · AI Deployment

São Paulo, Brazil hello@halberti.com [+55 41 99172-9954](tel:+554199172-9954) [LinkedIn](#) [GitHub](#) halberti.com

I build products and help teams put artificial intelligence to work. An economist by training, a builder by curiosity. My work connects technology, business, and the people who use it.

Professional experience

Enter

AI Deployment

Hired to work directly with enterprise legal teams, implement AI workflows, and help projects succeed in day-to-day use.

Alma Intel

Founder

Built commercial intelligence products that turn conversations into opportunities and help sales teams learn from their work.

Over 100,000 conversations analyzed; more than US\$80 million in client revenue supported.

XP Inc.

Product Control

Trade support and profit-and-loss analysis for the Volatility and Commodities trading desk.

Indigo Hive

AI & Strategy

Led go-to-market strategy and product work for AI solutions, working with clients from the problem to delivery.

Banco ABC

Financial Institutions

Supported the local business team and international fundraising, with a focus on institutional relationships.

Education

Inspier

Economics

Undergraduate thesis (2023): Artificial intelligence regulation and governance challenges.

My 2023 undergraduate thesis uses public choice theory to explore the incentives behind AI regulation, the tension between growth and risk, and the challenges of international cooperation.

Projects

AlmaHub / Alma Intel

Founder · Company and product

My main entrepreneurial project. Built alongside sales teams to turn conversations into useful context, smart follow-ups, and learning.

TokenRats

Side project · Actively maintained

A little friendly competition for building with AI. Track token use, share progress, and turn experimentation into a habit.

Minha Doutora

Side project · Actively maintained

Your health records in one place, with control over who can see them. A personal project about helping people care for each other.

Skills and languages

Data analysis and modeling, AI automation, product implementation, and client delivery.

Python · R · SQL · VBA · GitHub · Claude Code · Codex

Native Portuguese · Bilingual English

College activities and volunteering

Inspier Data

Research with web scraping and text analysis, alongside study in econometrics, R, Python, and GitHub.

InFinance

Fixed-income studies, with presentations on central banks, government bonds, and macroeconomics.

Macroeconomics Center

Weekly discussions on economic activity, policy, inequality, and international markets.

Cursinho Inspier

Mathematics teacher in Inspier's community preparatory course.
